Ikelite W-20 Wide-Angle Conversion Lens #6420.46

Your new Ikelite housing features a 46mm threaded port for attachment of external 46mm accessory wet lenses such as the Ikelite 46mm W-20 lens #6420.46. External wide angle conversion lenses increase angle of coverage, so you can get much closer to your subject while still fitting everything in the frame. Zoom in slightly to eliminate vignetting with this lens when the camera is at it's widest angle setting.

#9306.81 67mm Threaded Adaptor

Allows attaching Ikelite W-20 #6420, Epoque, Type II Inon screw-on lenses, and macro lenses or diopters with 67mm threads. Includes larger size removable flash deflector. Moderate to extreme vignetting occurs with these lenses when the camera is at it's widest angle setting.

#9306.79 Bayonet Mount Adaptor

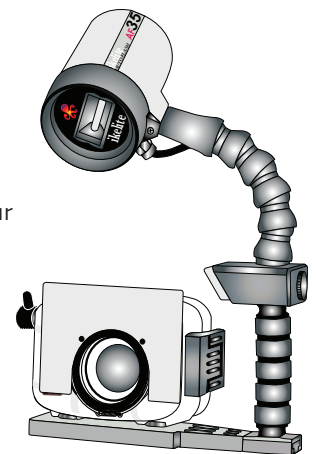

Allows attaching of the Inon UWL-105AD, UFL-165AD, UWL-100AD, and macro bayonet style lenses. Includes larger size removable flash deflector. Slight to moderate vignetting occurs with these lenses when the camera is at it's widest angle setting.
