Back View

Camera Setup

1. Use "P" Exposure Mode.
2. Set ISO to "100"
3. Set Red-eye reduction to "off".
4. Set Metering Mode to "center".
5. Set Focus Point to "Center AF".
6. Set White Balance to "Auto".
7. Set Flash Level to "Normal".
8. Set Steady Shot to "Shooting".
9. Set AF Illuminator to "Off".

NOTE: If over-exposure occurs when shooting close subjects, you can back away from the subject and then zoom in.

Ikelite W-20 Wide-Angle Conversion Lens #6420.46

Your new Ikelite housing features a 46mm threaded port for attachment of external 46mm accessory wet lenses such as the Ikelite 46mm W-20 lens #6420.46. External wide angle conversion lenses increase angle of coverage, so you can get much closer to your subject while still fitting everything in the frame.

#9306.81 67mm Threaded Adaptor

Allows attaching Ikelite W-20 #6420, Epoque, Type II Inon screw-on lenses, and macro lenses or diopters with 67mm threads. Includes larger size removable flash deflector.

#9306.79 Bayonet Mount Adaptor

Allows attaching of the Inon UWL-105AD, UFL-165AD, UWL-100AD, and macro bayonet style lenses. Includes larger size removable flash deflector.

NOTE: Vignetting can occur at widest angle camera lens setting with wide-angle conversion lenses. Zoom in to eliminate, or crop the image in post-processing. Also, slight edge softness around the edges in some situations is normal.

AF35 Strobe Package #4035

The AutoFlash AF35 kit is a great compliment, and an effortless, affordable way to add a flash to your new Ikelite point-and-shoot camera system. Everything you need to get started is in the box. Just attach it to the bottom of your housing and start taking pictures!

AF35 AutoFlash kit includes:

- AF35 strobe
- Flex arm
- AutoFlash sensor
- Handle with rubber grip
- Tray (single or dual)
- Mounting hardware

Go to www.ikelite.com for complete strobe and accessory info.
