Ikelite W-20 Wide-Angle Conversion Lens #6420.46

Your new Ikelite housing features a 46mm threaded port for attachment of external 46mm accessory wet lenses such as the Ikelite 46mm W-20 lens #6420.46. External wide angle conversion lenses increase angle of coverage, so you can get much closer to your subject while still fitting everything in the frame. Add the Ikelite W-20 or other wide-angle lenses with an Ikelite accessory port adapter for increased angle of coverage, color, and clarity.

#9306.81 67mm Threaded Adaptor

Allows attaching Ikelite W-20 #6420, Epoque, Type II Inon screw-on lenses, and macro lenses or diopters with 67mm threads. Includes larger size removable flash deflector.

#9306.79 Bayonet Mount Adaptor

Allows attaching of the Inon UWL-105AD, UFL-165AD, UWL-100AD, and macro bayonet style lenses. Includes larger size removable flash deflector.

NOTE: Vignetting will normally occur at widest angle camera lens setting with wide-angle conversion lenses. Zoom in to eliminate, or crop the image in post-processing. Also, slight edge softness around the edges in some situations is normal.
