## Ikelite W-20 Wide-Angle Conversion Lens #6420

An external wide angle conversion lens increases angle of coverage, so you can get much closer to your subject while still fitting everything in the frame. Add an Ikelite W-20 or other 67mm wide-angle conversion lens to improve your angle of coverage in any shooting situation.

Slight vignetting may occur at widest angle camera lens setting. Zoom in slightly to eliminate, or crop the image in post-processing.

**NOTE:** Bayonet mount lenses cannot be used with this housing.
